

The Ninth Annual Cypen Family Lecture in Pediatric Surgery

Contemporary Advances in the Management of Pediatric Biliary Diseases

Romeo Ignacio Jr., MD

Pediatric Surgery

Medical Director/Surgical Director of the Pediatric Intensive
Care Unit

Rady Children's Hospital

Professor of Clinical Surgery

UCSD School of Medicine

La Jolla, CA

Objectives: At the conclusion of this presentation, attendees are expected to:

1. Describe the rising incidence and evolving presentation of complicated biliary disease in children
2. Explain the development, components, and clinical utility of the Pediatric DUCT Score
3. Compare ERCP and a surgery-first approach for pediatric choledocholithiasis
4. Review emerging technologies aimed at preventing common bile duct injuries in pediatric cholecystectomy
